

# CBS Janssens

At Continental Breeding Station, we have invested hundreds of thousands of dollars in acquiring Janssens. We have the world's finest group of Merckx Janssens, all bred close to the Jonge Merckx and the "019". These birds have won in big competition time and again. There's also a strong Merckx influence in some of the other greats at CBS . . . Keizer, Victory, the Inteelt 019, Bonte As, etc.

The "Oude Merckx," was a fabulous racer for the Janssen Brothers, winning 20 firsts. Three of his sons, the "Jonge Merckx," the "019" and "Velo," went on to achieve world-wide fame, and have become legends. The Janssen Brothers have bred many wonderful pigeons, but none have been the equal of the Merckx.

There can be little doubt that the Merckx Janssens continue to have an unbelievable impact on the sport today. A countless number of winning lofts owe their fame to the Merckx lines. We consider the "Oude Merckx" the most prepotent breeding pigeon in history.

Our strongest Merckx bloodlines come from three pair of original Janssens. In each of the three pairs, you find a son or daughter of "019" and a grandson or granddaughter of "Jonge Merckx." In recent years we have purchased more than 40 children of these pairs. Most have a win or a multiple wins, plus many top-5 positions, in competition ranging from 2,000 to 3,500 birds per race. It was a few years ago that we brought in the first Merckx Janssens, from these pairs and they immediately became something very special at CBS. They are responsible for AU Hall of Fame winners, Champion birds, and futurity winners.
